

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. REPORT OF THE SECRETARY OF STATE

STATE OF NEVADA, DEPARTMENT OF STATE,
CARSON CITY, December 31, 1916.

To His Excellency, EMMET D. BOYLE, Governor of Nevada.

SIR: I have the honor to transmit herewith my third biennial report of the office of Secretary of State, for the years 1915-1916.

The business transacted during the period is shown in detail in the several tables (excepting Motor Vehicle Registrations and recording of Patents).

The receipts of the office for this time amounted to \$78,675.11. This is a substantial increase over the late preceding years.

Improvements too numerous to mention have been made, but I do wish to call attention to the new and complete card-index system just installed. This facilitates the handling of thirty-five thousand live records of the office with the greatest possible dispatch. The office is in excellent working order, and further comment seems unnecessary.

I wish to thank the Governor and the various state officers and their staffs for many courtesies rendered.

Respectfully submitted,

A handwritten signature in cursive script, reading "George Brodigan". The signature is written in dark ink and is positioned above the printed title of the Secretary of State.

Secretary of State.

¹Ex officio Clerk of Supreme Court by virtue office Secretary of State.²Decided by Supreme Court to be constitutional office.³Died January 21, 1915, and H. R. Mighels appointed January 22, 1915.⁴The Legislature of 1877 abolished the office of State Printer (to take effect January 1, 1879) and state printing was done by contract in 1879 and 1880. (Stats. 1877, p. 161.) The contract system having proven unsatisfactory and detrimental to the interests of the State, the Legislature of 1879 reestablished the office under the name of "Superintendent of State Printing" (Stats. 1879, p. 138), and made an appropriation to purchase necessary materials.⁵Appointed by Board of State Printing Commissioners, under Stats. 1879, p. 138, for the years 1881-1882, since which time, under the law, the Superintendent of State Printing has been elected by the people every four years, as is the case with all other state officers.⁶Resigned November 9, 1868, and B. C. Whitman appointed to fill vacancy.⁷Died April 21, 1867, and J. Neely Johnson appointed to fill vacancy.⁸Resigned November 7, 1872, and C. H. Belknap appointed.
